

KEYBOARD CAM RUBBER ROLL SHAFT BRACKETS, PROVIDED WITH OILITE BEARINGS

Oilite bearings have been applied to the keyboard cam rubber roll shaft brackets for both right and left hand ends of the rubber roll shafts. This will eliminate the necessity of oiling and prevent the possibility of oil creeping onto the rubber roll and cause deterioration.

APPLIED IN FACTORY TO MODELS

All new Models of 29-30-31-32-33 and Supplemental Models 5-8-9-14-25-26.

OUTSTANDING MODELS

Can be applied to outstanding models (excepting high base machines) by substituting new brackets H-1083, H-2480 to left hand side and two oilite bearings H-4770 for brackets on right hand side of keyboard.

First applied to Model 29(4)(72-90), Serial #53428.
