LINOTYPE IMPROVEMENT INFORMATION SHEET

No. 279

ASSEMBLING ELEVATOR & DELIVERY SLIDE

The Self Quadder type Assembling Elevator & Delivery Slide have been added as regular equipment on all new machines. This obviates the need for setting the Delivery Slide Clamp D-1436 to correspond with changing lengths of lines thus aiding the operator by doing away with this operation.

APPLIED IN FACTORY TO MODELS

Blue Streak 30 and 42 Em Models 5-29-30-31-32-33-34-35-36

OUTSTANDING MODELS

Can be applied to all 30 and 42 Em Machines by substituting new parts as indicated for Delivery Slide. For information in changing over the Assembling Elevator see Improvement Sheet #275. See Mailing Sheets 490 and 520.

First applied to Model 31(2)(90), Serial #55835
