

LINOTYPE IMPROVEMENT SHEET

NO. 281

OLD CONDITION

NEW CONDITION

FIRST ELEVATOR JAW DUPLEX RAIL LEVER PLATE (SELF-QUADDER)

A one piece Plate (E-4852) has been adopted to replace the present Plates (E-384) (R.H.) and (E-390) (L.H.). This new plate covers the two plunger tension screws (E-2796) and also the slots for the Matrix Detaining Spring (Front) (E-3688). This new construction is a protection in the event of squirts.

APPLIED IN FACTORY TO MODELS

All Machines equipped with the Self-Quadder.

OUTSTANDING MODELS

Can be applied to all outstanding Machines equipped with the Self-Quadder by removing (E-384) (R.H.), (E-390) (L.H.) and replacing with one of (E-4852) using the same two Screws (D-177).

First applied to Model 31(4)(90) - Serial #68574

MERGENTHALER LINOTYPE COMPANY, Brooklyn, N.Y.
