

JUSTIFICATION ROD (R.H.) STOP STUD (SELF-QUADDER)

A change has been made in the design of the Justification Rod (R.H.) Stop Stud and Vise Automatic Stop Rod Guide Stud (L.H.) to accommodate the Vise Automatic Stop Rod Guide Stud (L.H.) Wedge Screw.

This is to prevent the Justification Rod (R.H.) Stop Stud from loosening.

APPLIED IN FACTORY TO MODELS

All 30 and 42 Em Machines equipped with Self-Quadder.

OUTSTANDING MODELS

Can be applied to Outstanding 30 & 42 Em Machines equipped with Self-Quadder having the Justification Rod (R.H.) Stop by removing E-4584 and E-185 and Adding one each of E-4785, E-4786 and E-4787.
