

LINOTYPE IMPROVEMENT SHEET

NO. 302

{ MODEL 29 & 30 D-4776 } Assembler Entrance Flexible Buffer (Lower).
MODEL 35 & 36 D-6124 }
{ MODEL 30 & 36 D-4812 } Assembler Entrance(Aux)Flexible Buffer (Lower).

OLD CONDITION Bakelite

NEW CONDITION Brass

ASSEMBLER ENTRANCE FLEXIBLE BUFFER

The Assembler Entrance Flexible Buffers are now made of brass. This not only eliminates warping but also prevents material around the screw holes from breaking out.

APPLIED IN FACTORY TO MODEL

All new Model 29, 30, 35 and 36 Machines.

OUTSTANDING MODEL

Can be applied to all 29, 30, 35 and 36 Models by substituting the Brass Buffer for the Bakelite. See Mailing Sheet #692.

First applied to Model 29(2)(90) - Serial #63603
