

LINOTYPE IMPROVEMENT SHEET

No. 319

MANUALLY OPERATED OSCILLATING FRONT SHIFT FOR OUTSTANDING LINOTYPES

The Manual Shift Device has been designed for Outstanding Model 29, 30 and 36 Linotypes to replace the Power Driven Oscillator Shift Mechanism. The type shown in the illustration is for application to Model 29 Linotypes below Serial Number 57100. For Model 30 Linotypes below Serial Number 57275, a similar type is supplied with the addition of an Auxiliary Shift Lever.

For Models 30 above Serial Number 57275 and Model 36, the Manual Shift Unit is of the type shown on Improvement Sheet Number 313, with the addition of an Auxiliary Shift Lever.

OUTSTANDING MODELS

Can be applied to Outstanding Mixer Models 29, 30 and 36.
