LEFT-HAND VISE JAW AND SWITCH SAFETY

The Left-Hand Vise Jaw and Switch Safety has been made available for outstanding Linotype machines equipped with the Linotype Self-Quadder, to replace the mechanical left-hand vise jaw safety on such machines. The complete equipment includes a new left-hand vise jaw and block assembled with the electrical switch, a pot pump solenoid assembly, a power box to reduce the voltage to 24 volts for operation of the electrical safety, plus the necessary wiring.

OUTSTANDING MODELS

Can be applied to all outstanding 30-em Linotypes equipped with the Self-Quadder. In ordering give model and serial number of the Linotype and whether or not it is equipped with a Mohr Linc-Saw.
