OLD CONDITION

NEW CONDITION

E-5980 VISE JAW (L.H.) SAFETY DETENT

E-5978 VISE JAW (L.H.) SAFETY DETENT OPERATING PAWL

The Safety Detent and Operating Pawl have been redesigned to improve the operation of the mechanical left-hand Vise Jaw Safety used on Self-Quadder (Inboard Quadder) Linotypes.

The new Detent E-5980 and Pawl E-5978 are designed to provide a more positive action of the safety. In addition the small roll reduces friction and increases the life of the parts.

OUTSTANDING MODELS

Can be applied to all Outstanding Linotypes equipped with the Self-Quadder (Inboard Quadder). The Detent E-5980 and Pawl E-5978 must be used together. Use Mailing Sheet #649.
