HYDRAQUADDER OPERATING LEVERS

The operating levers which actuate the main and secondary control valve spindles have been redesigned to incorporate an oilite bushing 38-0459-01 to reduce wear of the levers and the studs on which they pivot.

APPLIED IN FACTORY TO MODELS

All Models with Manual or Electric Hydraquadder.

OUTSTANDING MODELS

Can be applied to all outstanding Linotypes equipped with Hydraquadder by ordering parts 38-0457-01 and 38-0456-01 for Manual and Electric Hydraquadders, and also parts 38-0467-01 and 38-0463-01 in addition, for an Electric Hydraquadder.
