

LINOTYPE IMPROVEMENT INFORMATION SHEET

NO. 349

L.H. VISE JAW CABLE GUARD (HYDRAQUADDER)

This guard which holds the L.H. Vise Jaw Wire Cable in position has been redesigned to assure the free movement of the cable and increase its wear life.

APPLIED IN FACTORY TO MODELS

All Models with Manual or Electric Hydraquadder.

OUTSTANDING MODELS

Can be applied to all outstanding Linotypes equipped with Hydraquadder by ordering new guard 38-0428-01 and two screws 39-0005-08, and drilling and tapping two 8-32 holes as shown.

Mergenthaler Linotype Company, Brooklyn, N.Y.
