THE ancient province of Touraine very nearly corresponds to the modern section of Indre et Loire, but in some directions it is rather more extended. It is crossed from east to west by the rapid and sandy stream of the Loire, from a point not far above Amboise to the valley of Fontevrault. Three rapid tributaries of the Loire at this part of its course join the river from the south. Never a stream in so short portion of its course has so much history to tell. Until the end of the sixteenth century this section of France was covered with numerous châteaux, for beside the old feudal towers, whose

*Pick and click
Goes Touraine in the stick,
As the artist stands at his case;
His eyes glance quick as his fingers pick
Touraine at a rapid pace;
And one by one as the letters go,
Jobs are piled up steady and slow,
Steady and slow,
But still they grow,
And modern jobs they soon will show—
Beautiful jobs, that without a sound
Appeal to the people all around.*
